Common Questions

[When is my data saved during the data entry process?](#)

[What is the difference between a warning and an error?](#)

[What is the specific rule governing agreements, arrangements, and the like?](#)

Agreements with Other Parties and Joint Bidding Arrangements

- Anti-Collusion Rule: Unless properly disclosed, communications concerning bids, bidding strategies, or settlement agreements (including post-auction market structures) generally are prohibited among applicants that bid for licenses in any of the same geographic areas (Section 1.2105(c)).
- Prohibition period is between the short-form deadline – January 20, 2006 at 6:00 p.m. - and the down payment deadline, which will be specified in a future public notice. (Section 1.2105(a)(2)(ix)).

Agreements with Other Parties and Joint Bidding Arrangements Continued

- To be in compliance, applicants must certify under penalty of perjury that they have not entered and will not enter into any explicit or implicit agreements, arrangements or understandings of any kind with any parties other than those they have identified regarding the amount of their bids, bidding strategies or particular licenses on which they will or will not bid.
- The rule prohibits an auction applicant from discussing a competing applicant's bids or bidding strategies even if the first applicant does not discuss its own bids or bidding strategies.

Agreements with Other Parties and Joint Bidding Arrangements Continued

- This anti-collusion prohibition applies to all applicants, regardless of whether an applicant becomes a qualified bidder or bids in the auction.
- In Auction No. 64, the rule would apply to applicants bidding for any of the same construction permits.

Agreements with Other Parties and Joint Bidding Arrangements Continued

- For the anti-collusion rule, “applicant” includes controlling interests, ownership interests, and officers and directors.
- Applicants must identify all parties with whom they have entered into agreements of any kind relating to the licenses being auctioned, including the post-auction market structure (Section 1.2105(a)(2)(viii)).
- The rule requires auction applicants that make or receive a prohibited communication of bids or bidding strategies to report the communication immediately to the Commission in writing.

Former Defaults or Delinquencies

- Applicants and their attributable interest holders, that have cured any default on a Commission license or paid any non-tax debt delinquency can participate in an auction if otherwise qualified, but are required to pay upfront payments that are 50% more than the otherwise required upfront payment.
- Applicants must certify whether they are delinquent on any non-tax debt owed to any Federal agency in order to be eligible to participate in the auction. For these purposes, “applicant” includes the applicant’s controlling interests and affiliates (of both the applicant and controlling interests).
- Applicants are well advised to resolve any concerns regarding outstanding “red lights” for any relevant party prior to filing the Form 175. An applicant will be able to submit Form 175 to the Commission, notwithstanding a “red light” but the application may not be “accepted” at a later stage.
- Finally, applicants should remember that the “red light” database concerns only current delinquencies with the Commission. Auction rules are concerned with both current and former delinquencies on non-tax debt owed to any Federal agency. See 47 C.F.R. Section 1.2105(a)(2)(x) and (xi). Applicants should not rely on a “green light” as a guarantee that they have no concerns regarding delinquencies, current or former, on non-tax debt to any Federal agency.

Auction Application Manager Upfront Payment Calculator

Calculating Your Upfront Payment

Applicants are solely responsible for determining the amount of their upfront payment. In most FCC auctions, the amount of the upfront payment determines initial bidding eligibility. The upfront payment calculator may assist applicants in determining an amount. However, regardless of whether they use the upfront payment calculator, applicants should check their calculations carefully, as there is no provision for increasing a bidder's eligibility after the upfront payment deadline.

The following table lists all available Permits based on selections in your submitted Auction Application. The upfront payment calculator will help you to determine the appropriate upfront payment amount to submit with your Form 159. Use of the upfront payment calculator is always optional; you can type another amount in the Total Upfront Payment field or Total Bidding Units field, if desired. Please refer to the Auction 64 [Procedures](#) public notice for a complete explanation of upfront payments and bidding eligibility.

To calculate the total upfront payment amount to submit with your Form 159, do the following:

1. Select all Permits for which you would like to place bids during the auction. The calculator will automatically calculate the total bidding units (maximum eligibility) and upfront payment amount for those Permits.
2. To save the total upfront payment amount and carry it through to Form 159, click the "Carry to 159" button.

Please note that if you selected 1,000 or more Permits, the calculator will not display the list or keep a running total of bidding units. If you have selected 1,000 or more Permits, simply type in the total number of bidding units for which you want to establish your maximum eligibility. The calculator will then automatically calculate the corresponding upfront payment amount.

Available Permits

Select (All Clear)	Item Number	Location	Bidding Units	Upfront Payments
<input type="checkbox"/>	TV-DTV003-3	Apalachicola, FL	80,000	\$80,000
<input type="checkbox"/>	TV-NTS009-31	Victoria, TX	80,000	\$80,000
<input type="checkbox"/>	TV-NTS011-51	Jackson, MS	295,000	\$295,000
			Total Bidding Units	Total Upfront Payment
			<input type="text"/>	\$ <input type="text"/>
				<input type="button" value="CARRY TO 159"/> <input type="button" value="CLOSE WINDOW"/>

Example: Upfront Payments and Bidding Flexibility

Construction Permit	Location	Bidding Units	Upfront Payment
ITV-DTV003-3	Apalachicola, FL	80,000	\$80,000
TV-NTS009-31	Victoria, TX	80,000	\$80,000
TV-NTS011-51	Jackson, MS	295,000	\$295,000

- If we wish to bid on all three permits in a single round, we would need to purchase at least 455,000 bidding units ($80,000 + 80,000 + 295,000$).
- If we only wish to bid on one permit, but not all three permits in a single round, purchasing 295,000 bidding units would meet the requirement for any one of the permits. We would be able to bid on the NTS011-51 permit OR both the DTV003-3 and NTS009-31 permits in a single round, but not all three at the same time. We also would not be able to bid on the NTS011-51 permit along with one of the other permits in a single round.
- If we purchase only 80,000 bidding units, we would have enough eligibility for the DTV003-3 OR the NTS009-31 permit but not for the NTS011-51 permit in a single round.
